

COMPOST TUNNEL EQUIPMENT

GTL - Thilot Equipment Compost Hopper RT.300 & Troughed Belt Conveyor TS.120

Our line-up of compost hoppers ranges from internal hopper widths of 1.20 mtr. up to 3 mtr., covering a capacity spectrum of up to 250 tons per hour. In combination with our troughed belt conveyor TS.120, we deliver a perfect loading module for filling your phase II tunnels.

Well proven designs and extensive use of stainless steel and galvanized materials make that these machines set the standard for performance and durability.

*Easy access through integrated stairway.
Our proven solid design and use of high quality materials mean a long life time.*

*As an extension to our troughed belt conveyor,
the TB.100 In feed conveyor system is available
for an optimum filling effort.*

PASSION FOR QUALITY

GTL Europe

GTL Europe is one of the foremost suppliers of equipment and projects regarding composting operations and mushroom farms. Our product line includes machines, air handling and control systems as well as turn-key facilities.

GTL Europe is a capable and reliable partner working with its customers in close cooperation on innovative solutions and developments.
