

# COMPOST TUNNEL EQUIPMENT

## GTL - Thilot Equipment Overhead Conveyor CC.120 & Discharger DC.120

With the GTL-Thilot overhead conveyor CC.120 and compost discharger DC.120, you will have the ideal feeder system for your tunnel filling machine or tunnel cassette for phase I and phase II composting operations. Built upon a modular sections, this system is set for future extensions as it extends along with the expansion of your composting tunnels. Extensive use of galvanized and stainless steel materials makes this a safe investment in efficiency and reliability for your operation. The integrated drive system of the GTL-Thilot discharger allows you even to load your trucks with compost without any problem.

*Long range transportation of up to 150 meters.  
Clean, simple and effective.*

*High speed loading of tunnel filling machines  
and cassettes for phase II and III tunnels  
as well as truck loading.*

# PASSION FOR QUALITY

## GTL Europe
