

COMPOST TUNNEL EQUIPMENT

GTL - Thilot Equipment Tunnel Filling Cassette FC.169

Our latest models in the line-up of phase II and III filling machines is the FC.169 series. Designed for high speed, high capacity filling up to a rate of 250 tons/hr. The open-structure design makes cleaning a breeze. The conveyors are made of fully galvanized or stainless steel constructions. Our power drive system for the gun conveyor gives you a compact and reliable drive solution combined with an ultra high belt speed.

Filling performance and quality are guaranteed !

Power filling with more capacity and more efficiency combined with the best filling performance.

Excellence in detail. Smooth operation through optional joystick operating and control system.

PASSION FOR QUALITY

GTL Europe

GTL Europe is one of the foremost suppliers of equipment and projects regarding composting operations and mushroom farms. Our product line includes machines, air handling and control systems as well as turn-key facilities.

GTL Europe is a capable and reliable partner working with its customers in close cooperation on innovative solutions and developments.
